DETAILED ACTION

Applicant's request for reconsideration of the finality of the rejection of the last Office action, via Appeal Brief filed on 09/26/2005, is persuasive and, therefore, the finality of that action is withdrawn.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-4, 8-18, 19-22 and 26-36, drawn to displaying previous history of categories for franking system, classified in class 715, subclass 817.
 - II. Claims 5-7 and 23-25, drawn to interface customization adapted based on stored usage or frequency of use, classified in class 715, subclass 745.

2. The inventions are distinct, each from the other because of the following reasons:
Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as displaying previous history of categories for franking system by allowing a user to change information in the category associated with each specific history tab; and invention II has separate utility such as interface customization adapted based on stored usage or frequency of use. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. A telephone call was made to Attorney Geza Ziegler, Jr. on Dec. 2, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made because the Attorney failed to return the call within three business days.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nhon (Gary) D. Nguyen whose telephone number is (571)272-4139. The examiner can normally be reached on Monday - Friday with every other Monday off.
